

General Security Ltd

TOTAL SECURITY SOLUTIONS

Environmental Policy

General Security Ltd and all subsequent divisions (the company) operations are based at the Ebbsfleet Kent Head Office. The Company operates at various locations nationwide, supplying security services to multiple industries. The company acknowledges and recognises that its operations have an impact on the local and global environment.

Our aim is to ensure that customer policies and procedures regarding the environment are upheld at all times, we actively seek to promote awareness amongst our employees, contractors, sub contractors and clients while ensuring that the safety and security of all persons and properties is paramount.

We accept our responsibility for ensuring the health, safety and welfare for other persons who may be affected by our activities.

We are committed to the maintenance of an environmental management system, the continuous improvement of the companies' environment performance and prevention of pollution.

This will be achieved through the following measures;

- The company will ensure its continuous improvement through setting objectives and targets, which will be reviewed within the internal audit programme to ensure success.
- The Company will ensure this policy is available to all Employees, Clients and members of the public on demand.
- Comply with current environmental legislation and industry codes of practice, and where practical, seek to meet future legislative requirements ahead of relevant deadlines;
- Integrate environmental objectives into relevant business decisions in a cost-efficient manner;
- Require all colleagues to address environmental responsibilities within the framework of normal operating procedures, and in line with the requirements of its clients;
- To monitor and minimise the levels of waste. To dispose of such waste in a safe and responsible way, and employ recycling or seek to recover as much as is economically practicable.
- To enhance awareness of relevant issues and influence suppliers of services to reduce their impact on the environment;

As part of this commitment, the company will regularly update our Environmental Policy to reflect the company's environmental effects and assist in the implementation of BS EN ISO 14001, to which the company will seek certification by the end of 2011.
